REPORT FOR THE YEAR ENDING DECEMBER 31, 1891.

POLICE DEPARTMENT OF THE CITY OF NEW YORK, }
NO. 300 MULBERRY STREET. }

Hon. HUGH J. GRANT, Mayor, City of New York:

SIR—The Board of Police of the Police Department of the City of New York, hereby respectfully submit a report of the operations and transactions of the Department and force for the year ending December 31, 1891.

THE POLICE FORCE.

The comparative strength of the Police force, in its several grades, at the close of the years stated, was as follows :

RANK.	1880.	1885.	1888.	1889.	1890.	1891.
Superintendent	1	1	1	1	1	1
Inspectors	4	3	4	4	4	4
Surgeons	19	18	18	18	18	15
Captains	37	34	36	36	36	36

Patrolmen	2,074	2,396	2,853	2,922	3,032	3,157
Doormen	77	77	78	79	75	75
Total	2,519	2,898	5,351	5,421	5,525	5,643

In the foregoing table there are included one Sergeant, two Roundsmen and forty-two Patrolmen detailed to the service of the Health Department, comprising what is known as the Tenement House Squad ; also one Sergeant, two Roundsmen and fifty-four Patrolmen detailed to the service of the Department of Street Cleaning, pursuant to law.

During the past year the total force has been increased, as appears by the table, one hundred and eighteen.

At the close of the year there were the following vacancies : one Captain, eleven Sergeants, nineteen Roundsmen and five Doormen.

As compared with the total force of the year 1880, it will be seen that the Department has eleven hundred and twenty-two more men, an average yearly increase of about one hundred.

The Police force is distributed as follows :

STATION-HOUSES.

The condition of Station-houses, their location, and the boundaries of Precincts, remain the same as at last report, though the completion of the new Station-house, Lodging-house and Prison in West Sixty-eighth street will necessitate a change in the boundaries of the present Twenty-second and Twenty-sixth Precincts.

Plans and specifications for a new Station-house in East One Hundred and Fourth street are about completed, and work will soon be commenced on the proposed new structure. The proposed Precinct for which the house is to be erected will be taken from the present Twenty-seventh and Twenty-ninth Precincts, both now densely populated in some portions. At present there is no Station-house on the east side, between Eighty-eighth and One Hundred and Twenty-sixth streets.

Lots have been purchased in Macdougall street for a new Station-house for the Eighth Precinct. Plans are now in course of preparation for the new house.

In the appropriation for 1892 provision has been made for the purchase of lots upon which may be erected a new Station-house for the Ninth Precinct, the present house being unfit for the purpose.

Several of the Station-houses in the lower part of the city, and all of them in the districts above the Harlem river, need either enlargement, extensive alterations and repairs, or complete new structures to properly house the force and transact properly the business of the Department. Two years ago the houses referred to were specified and their deficiencies pointed out.

Board of Surgeons.

The following tables show the sick time of the force by Precincts and Squads during the year, together with other results of the labor of the Surgeons of the Department.

The time lost by members of the force by reason of sickness, disabilities and injuries during the year is shown in the first table, from which it will be seen that the time actually lost was 44,775 days—3.44 per cent. of the total days' time of the force. This is an increase of 6,142 days over the record for 1890, and 0.38 per cent. to full time. The amount paid for sick time lost was \$73,699.52 (an increase of \$10,073.28), which does not include allowances of full pay for disabilities incurred by the force while in the actual performance of duty, and which allowances were made by the Board of Police some time subsequent to the recovery from the disability. The additional amounts aggregate the sum of \$860.06, which, added to the amount above stated, makes the total sum paid for sick time lost \$74,579.58, an increase of \$9,863.63 over the preceding year. These large increases are no doubt due to the epidemic of influenza which affected the force very seriously, though the number of men sick in January, 1891, was 2,977 less than for the corresponding month in 1890. It will be noticed, however, that in March, April and May of 1891 the number of men sick was 5,357 greater than during the same months in 1890. The per cent. of sick time in the Second, Fifth, Sixth, Seventh, Eighth, Ninth, Sixteenth, Eighteenth, Twentieth, Twenty-first, Twenty-second, Thirty-first and Thirty-fifth Precincts will be found largely in excess of the average. This excess is readily accounted for so far as the Fifth, Seventh, Ninth, Eighteenth, Twenty-first, Thirty-first and Thirty-fifth Precincts are concerned, by the condition of these Station-houses, as noticed in former reports.

The second table shows the number of the force on the sick list each day during the year, from which it will be seen there was an average of more than 125 men sick each day, an increase of 17 over the year 1890. As above stated, there was a large decrease in January, but a very large increase in March, April and May.

The number of visits by the Surgeons to sick and disabled Policemen, and the calls to attend accidents at the Station-houses, will be found in the following table, from which it appears that the number of visits to Policemen were 4,775 greater than in 1890, and the number of visits to Station-houses 76 less. The Ambulance service, spoken of in these reports in former years, continues to be prompt and efficient, rendering service to this Department and to humanity that can hardly be estimated.

The above statements and tables indicate that the services required of the Surgeons of the Department increase year by year, as the force grows larger. Some of their work, however, is not shown by the figures given. Many meetings of the entire Board, now consisting of fifteen surgeons, are held during the year to examine cases specially referred to it, such as mental and physical incapacity, temporary or permanent. The causes and probable duration of such incapacity are duly inquired into and report made. The Surgeons are required to take medical and surgical charge of the pensioners of the Police Pension Fund and their families, giving them, without charge, the same care and attention as patients in their private practice. Though many of the pensioners are non-residents, this requirement adds much to the labors of the Surgeons, and as no records are kept as to this class of patients, such labor is not placed to their credit. During the year the Board of Surgeons lost three of its number by death. Dr. George Steinert was appointed Police Surgeon September 15, 1873; and died June 6, 1891. He was a veteran of the late war, having served as a Surgeon in one of our city regiments, and was a prominent figure in the Grand Army of the Republic. Dr. David Matthews was appointed a Police Surgeon April 16, 1877, and died July 10, 1891. He also was a war veteran. Dr. Lucien Damainville was appointed Police Surgeon March 14, 1887, and died December 15, 1891. He, too, was in our army during the war, and served with distinction. The loss of these three surgeons crippled the Board considerably, their long-continued sickness entailed upon the remaining members the work of a large portion of the annexed district and of the Precincts lying immediately south and west of the Harlem river, in both of which districts the sick lists were very large. Nevertheless, the work has been performed with satisfaction.

Elsewhere in this report will be found a table of arrests for a series of years, and comment thereupon. From the above it will be noticed that there were 25,836 arrests made in the contiguous territory comprised in the Fourth, Sixth, Tenth and Eleventh Precincts, or 28.66 per cent. of the entire number arrested, a very large increase over 1890. The number in the Eleventh Precinct has fallen off 1,487, while in the Fourth Precinct the increase is 5,092, or more than double the number arrested in 1890. For the first time in many years the Eleventh Precinct fails to show the largest number of arrests. The number arrested in the annexed district was 1,518, a decrease of 207 from the year 1890.

Attention is called to the large number (4,854) arrested by the Officers of the Street Cleaning Company. Nearly the entire number were arrested for violation of Corporation Ordinances specially bearing upon street-cleaning matters.

An examination of the above table, compared with the same for 1890, will show many more than ordinary changes in numbers arrested, as for instance in the Twentieth Precinct, where the increase has been nearly 1,000.

The following table exhibits the offenses for which arrests were made :

The tables following, giving the number of arrests for gambling and the quantities of gambling material seized, will be found of interest. It will be found that there has been considerable decrease in the arrests made, the number of fines imposed, and the amount of cash seized. The quantities of gambling material seized will also be found to have materially decreased. The figures for 1890 are given for comparison :

During the year 3,420 persons were arrested for violation of the excise law, as against 4,743 for the year 1890. This number is considerably less than the average for seven years past. The following table of arrests on Sundays for violation of the excise law shows a decrease of 815 as compared with 1890. It will be noticed that in the months of January, February, March, April, May and August there was a decided increase in the number of arrests over the corresponding months in 1890. It will be further noticed that in the four last months of 1891 there was a very great decrease. This decrease is accounted for, partly if not wholly, by the adoption of resolutions on the first day of September in response to a communication from the New York City Alliance, of which organization Mr. John Gilmore Boyd is President. The said communication and consequent resolutions were as follows :

Whereas, Policemen are paid by the taxpayers to aid in the protection of the lives, liberty and property of citizens and the maintenance of good order and to uphold the law ; not to connive at or persuade any one to commit a violation of the law, and not to decoy, entrap or betray any person into the commission of an act the doing of which would subject him to imprisonment or loss of business or property ; and

Whereas, To the great disgrace of our city, it has become generally known that a large number of Policemen have degraded themselves to the level of spies and have surreptitiously sneaked into liquor stores at unlawful hours and tempted and induced the unsuspecting owners or their employees to sell them drinks or cigars, with the contemptible design to subject them to arrest, annoyance and humiliation for so doing ; now, therefore,

Resolved, That it is the duty of the Police Commissioners to put a stop immediately to all such practices on the part of members of the Police force and to adopt stringent measures for the detection and punishment of policemen who may hereafter either by themselves or by others with whom they are in collusion, attempt to prevail upon any person in the liquor business or his employees to give them drinks or cigars at unlawful hours.

Resolved, That a copy of this resolution be sent by the Secretary to the Board of Police Commissioners forthwith.

The following was adopted by the Board of Police :

Resolved, That the communication from the Executive Committee of the New York Citizens' Alliance be received and placed on file and a copy referred to the Acting Superintendent with an expression of opinion on the part of the Board of Police that, while it on all occasions expects and requires the Police force to discharge its full duties, it disapproves in general of any action, on the part of the force, partaking of the character of sneaks or spies, or acting in a surreptitious manner in the discharge of its duties and utterly condemning the tempting or inducing, by the Police force, of persons to violate law, or of the force soliciting or receiving bribes of any kind or character for any purpose whatever.

Resolved, That any and all persons having knowledge of the commission of acts of the foregoing character are requested to make the same known to the Board of Police in order that they may be promptly investigated and such further action had in each case as the facts established may require.

From the above it appears that nearly 36 per cent. of the total arrests were of persons between twenty and thirty years of age—about the same as for the year 1890. A little more than 24 per cent. were of persons between thirty and forty years of age; 65.86 per cent. were single. These percentages vary but little year after year, and when compared with arrests for minor offenses, will show results of an interesting character. There is shown a large decrease in the per cent. of arrest of persons with no education. The table of nativity shows a marked increase in the num-

ber of Russians and Chinese arrested. With these exceptions, there are no changes in the relative number which call for special remark.

HOUSE OF DETENTION FOR WITNESSES.

The number of persons committed to, detained in and discharged from the House of Detention for witnesses during the year 1891, will be found in the following table. Compared with the report for 1890 there will be found an increase of 134 in the number of persons committed, and an increase of 2,125 in the number of days of confinement. The average time of confinement was 15 52-480 days, a very slight difference as compared with last year. The average cost of maintenance (meals alone) was \$11.64, a slight increase.

The names of the persons detained and other details are published in the quarterly reports of this Department.

SANITARY COMPANY.

Bureau of Steam-boiler Inspection and Engineers.

The report of this Bureau shows the number of steam-boilers examined, tested hydrostatically, and their condition, together with the number of applicants examined as to their qualification as engineers to take charge of and operate stationary and portable steam-boilers and engines in the City of New York; also the amount of money paid to the Treasurer of the Police Pension Fund, collected from owners of steam-boilers for certificates of inspection, as provided by chapter 437 of the Laws of 1885.

For the year there have been 6,515 applicants examined for engineers' certificates, to take charge of and operate stationary and portable steam-boilers and engines. Each applicant has been examined as to his experience, qualification and knowledge of steam-boilers and engines. Of this number 6,124 passed a satisfactory examination and have been granted certificates, and 391 have been rejected.

Total.	6,384	811	7,428

The yearly increase of work by this Bureau is shown by the following comparative statement of examinations :

	1885.	1886.	1887.	1888.	1889.	1890.	1891.
Engineers	4,826	5,571	5,724	5,708	5,990	6,271	6,515
Boilers	4,744	5,530	5,833	6,182	6,744	7,123	7,742
Total	9,570	11,101	11,557	11,890	12,734	13,394	14,257

It will be seen from the above statement that the annual increase of the work of this company is maintained, and that the efficiency of the officers detailed for the purpose remains in the same high condition. The record of accidents (three in 1889 and one in 1890) shows no increase. The only one reported during the year did not result in loss of life, and was insignificant in its effect. The laws relative to the examinations of engineers and boilers in the City of New York have been faithfully and efficiently carried out in every detail.

Steam-boiler Casualty, 1891.

While there are upwards of seven thousand steam boilers in operation in the City of New York, there has been but one incident during the year 1891 which might be construed into a casualty, wherein the neglect or

incompetency of a person in charge of the operation of a steam boiler can be brought into question, and this isolated instance was caused by the ignorance of the individual left to watch a boiler when not in actual operation. A portable steam boiler, known as Boiler No. 4555, owned by Christopher Henry, and used for furnishing steam to rock drills, excavating rock at Home street and the Southern Boulevard, exploded at 5.30 A. M., June 18, 1891.

The boiler was left over-night with fires banked and apparently in safe condition. The weather growing cold in the early morning, an Italian named Michael Orissini, employed to watch the tool-house, etc., added fuel to the fire in the fire-box and sat upon the boiler holding down the safety valve. The steam generated so rapidly and with no way of escaping reached that degree which the boiler was unable to withstand and blew out the tube sheet, severely scalding Orissini.

TENEMENT-HOUSE SQUAD.

This squad consists of one Sergeant, two Roundsmen and forty-two Patrolmen, detailed pursuant to law, to the service of the Health Department in this city. The following schedule shows the specific duties assigned this squad by the Board of Health, in addition to which the Police force of the squad is expected to make arrests for offenses, and are subject to the orders of the Superintendent in all emergencies requiring the services of the entire force of the Department. This squad made 99 arrests during the year just closed :

BUREAU OF GENERAL INFORMATION.

The following figures will show the result of the labors of this Bureau for the year. The importance and value of the Bureau, and the assistance it has rendered since its establishment in 1885, still continue to meet with full appreciation and commendation. An increase of business will be noted in some of the details :

Lost Children.

The number of lost children taken in charge by the Police in 1891 is shown in the following schedule, from which it appears that the total number is 88 more than in 1890, and the number restored to parents or guardians is proportionately increased :

FOUNDINGS.

During the year 202 foundlings were taken temporarily in charge by the Police, 22 more than in 1890, and 34 more than in 1889. Under the caption of “Miscellaneous Statistics” it will be seen that the Police found 89 dead infants and 81 fœtuses, a slight increase in the first and decrease

in the last. Inasmuch as there are many abandoned infants in the City of New York that do not come into the charge of the Police, and that the number of foundlings is annually increasing, it is deemed proper to call the attention of the authorities to the importance of the subject, notwithstanding the fact that, compared with large European cities, we have good reason to congratulate ourselves upon the proportionately small number here reported.

The following table shows the number of each sex and the number found in each quarter during the year :

ORDINANCE SQUAD.

The Police force of the Third Precinct (stationed at the City Hall), is called the Ordinance Squad. Its duties are chiefly to make investigations on applications for license issued under direction of the Mayor. The figures in the table below show that 35,539 investigations were made by this force during the year 1891, an increase of 3,238 over 1890. The regulation of hacks in their approach to and departure from places of amusement and public assemblages forms a part of the duties of this squad.

The various squads arrested, during the year 1891, 445 persons for driving vehicles without name or number.

In addition to the Police cases sent to the prison ward for treatment, 122 prisoners in confinement in the City Prisons were transferred to this ward for treatment. During the latter part of the year an additional ward was established at Bellevue for the reception of female prisoners who required medical or surgical care and treatment. The necessity of these wards has been amply demonstrated, as will be seen by the comparative table above presented.

HARBOR POLICE.

In the report for 1889 there appeared a statement of the importance of the service rendered by the force assigned to duty upon the waters surrounding the city, with a description of the manner in which the police performed its duties. Though the appurtenances, steamboats, row boats, etc., are old and in a measure inadequate to the service as it should be performed, the records show the force to be so earnest and active that criminal operations in the harbor are exceedingly rare, with the exception of petty cases, from which our large water traffic cannot be wholly exempt. Steam launches, however, to replace the old row boats, are required in order that the docks from the water side may be more frequently and efficiently policed.

TWENTY-EIGHTH PRECINCT.

In the report for 1890 a partial statement was presented of the enormous traffic carried on upon the docks from Gouverneur Slip, East river, to Fourteenth street, North river, and the immense interests under the protection of the Police force of this precinct. Since the date of that report the boundary of the precinct on the North river has been extended to the foot of West Twenty-sixth street.

The consolidated tabular statement of last year, incomplete as it was, proved of interest to the public, and the value of the aid and protection rendered by the Police was made more clear than it could have been in any other way. The tables below given are more in detail and will, perhaps, serve to show in much clearer form the immense business done on our river fronts covered by the force of this precinct.

It must be borne in mind, in examining the following figures, that many branches of transportation business are not included. Coal, lumber, brick, building material, ice, hay and straw landed by vessels coming down the Hudson river are not included. Market boats, the great fish and oyster business, and in fact traffic by sailing vessels are not included.

TELEPHONE SYSTEM.

The Telephone Service of the Department (connecting the offices at Headquarters, also the Eighth, Ninth, Nineteenth and Twenty-eighth Precincts, and Piers A and 41, North river), has given much satisfaction during the past year. Telephones were placed at the above-named stations to ascertain their adaptability for use in the Department. The Superintendent of Telegraph recommends that as soon as practicable the telephone be placed in each Station-house, as it would be a most efficient auxiliary to a telegraph system. By the use of telephones the stations could be put in direct communication with one another, thus relieving the telegraph lines of a considerable number of messages, especially messages of a conversational nature requiring no record. It is noticed since the introduction of telephones that there are quite a number of important messages of this character, but for accuracy in transmission and a correct record, a system of telegraph is indispensable.

POLICE SIGNAL BOX SYSTEM.

During the past year the signal box lines in the Thirty-first, Thirty-second, Thirty-third, Thirty-fourth and Thirty-fifth Precincts, which were in many cases of an inferior quality, were damaged by storms ; in repairing them only the best quality of insulated wire was used ; the lines are now in first-class order.

The following will show the precincts in which signal boxes are located, the number of boxes and the number of signals sent from these boxes and responded to by the Sergeants on desk duty at the Station-houses during the year 1891 :

PRECINCT.	NUMBER OF BOXES.	NUMBER OF SIGNALS.
Thirty-first.....	7	20,407
Thirty-second.....	6	25,367
Thirty-third.....	8	24,245
Thirty-fourth.....	7	21,092
Thirty-fifth.....	6	24,090
Total.....	34	115,201

Owing to the removal of poles and the transferring of wires in the Nineteenth Precinct (by order of the Board of Electrical Control), it was necessary to discontinue the use of four signal boxes temporarily, leaving three working at the present time, located as follows : Broadway and Thirty-ninth street, Madison avenue and Thirty-eighth street and Madison avenue and Twenty-seventh street. These boxes are only used in cases of emergency—calls for Police, ambulances and fire-alarm. The officers of this precinct are not required to transmit the regular patrol signals.

During the past year twenty-seven miles of wires were transferred from pole lines to house tops so as to permit the removal of the poles.

POLICE SIGNAL SYSTEM, PATROL WAGONS, ETC.

During the coming year efforts will be made to secure for this Department an Electric Signal System now and for some time past urgently needed, in order to facilitate Police work and render it more rapid and effective. The practical working of various systems in other cities in the United States has proven the desirability of speedy communication between Station-houses and Patrolmen on post, and the only ground upon which objection can be made to the adoption of the best of these systems is the first cost, which naturally would be very great. This Board is of opinion, however, that any expenditure which would have the effect to secure a better and more efficient Police service would be justified and supported by our citizens.

In the appropriations for the maintenance of this Department for 1892 the sum of \$12,500 is set apart for the purpose of supplying additional patrol wagons, horses, etc. Though this sum is not adequate to provide the number of wagons needed by the Department, it will enable the Board to furnish the outlying district with better means of communication in this particular. It does not seem to require any argument to show the advisability of supplying the Police with this valuable aid as quickly as the financial conditions will permit, notwithstanding the fact that in an emergency vehicles for the rapid transportation of the force from point to point might be hired from private owners.

For some time past trial has been made of improved systems of telegraphing for the Department, and the Board of Apportionment has appropriated for 1892 the sum of \$25,000 with which to secure new instruments. This improvement will materially aid us in accurately transmitting and receiving messages, and otherwise render this important branch of Police operation more rapid and efficient.

In the particulars above mentioned our city is not so progressive as many others, and hitherto there has not been much need of haste in the adoption of improvements which were, in a sense, only experimental. Should, however, any great emergency arise (not an improbable thing in the present agitated condition of largely populated centres), there would be reasonable ground to censure our authorities for failure to provide approved aid to the Police in the protection of life and property and preservation of the public peace. The best system of signaling and telegraphing, when ascertained, should be provided with as little delay as practicable, if we would be regarded as acting with prudence in a time of comparative quiet.

BOARD OF EXAMINERS.

The number of applicants for promotion within the Department examined by the Board of Examiners during the year was :

	PASSED.	REJECTED.	ABSENT.	TOTAL.
Patrolmen	42	25	2	69

DISCIPLINE OF THE FORCE.

During the year 1891 the number of charges preferred against members of the force was 4,059, an increase of 225 over the year 1890.

The grounds of complaint in these charges were as follows :

Intoxication	27
Neglect of duty and violence of the rules.	3,847
Disobedience of orders.....	12
Complaints by citizens.....	173
Total.....	<u>4,059</u>

The judgments rendered by the Board were as follows :

Dismissals.....	28
Fines	3,651
Reprimands	86
Complaints dismissed or withdrawn.....	175
Total.....	<u>3,940</u>

The aggregate number of days' fine inflicted as punishment was :

Sergeants	49
Roundsmen	9
Patrolmen.....	5,734½
Doormen.....	24
Total.....	<u>5,816½</u>

There is an increase of 666 days over the fines of 1890. The fines amounted to \$18,330.61 (an increase of \$1,882.13 over the previous year), which sum was paid into the Pension Fund, pursuant to law.

The discipline of the force, shown in part by the above figures, remains in the condition of high excellence previously referred to. There was an average of a trifle over one complaint against each member during the year, and the average of days' fine against each man charged with neglect of duty, etc., was about one and one-half days. As will be seen, only a small number of the charges were of a grave character. It is a source of gratification that among so many men there should be so little ground for complaint, except for the petty offenses against the rules and regulations.

PAWN-SHOPS, LODGING HOUSES, ETC.

The following table shows the number of pawn-shops, licensed liquor and beer saloons, and cheap dormitories in the city on the 31st day of December, 1891 :

A comparative statement of figures in this connection exhibits the following :

	1886.	1888.	1889.	1890.	1891.
Pawn shops	104	106	110	119	122
Liquor and beer saloons	8,806	7,874	7,884	7,823	7,861

Number of lodgings furnished ...	3,716,294	4,649,660	4,974,025	4,823,595	4,397,873

It will be seen from the above that the decrease in lodgings reported last year is still continued. The total decrease from 1890 is 425,722. In the Fourth, Sixth and Eleventh Precincts the decrease is 629,966. For several years past the Board has called attention to the district covered by the Fourth, Sixth, Tenth and Eleventh Precincts, the large number of lodging-houses located therein and the extremely large percentage of arrests made by the Police force assigned thereto. As stated, the lodgings have materially decreased in three of these Precincts, and the Tenth Precinct has increased the number only 97,400. The decrease spoken of is attributable to the fact that the business of furnishing cheap lodgings has been abandoned in many cases and several of the largest houses torn down or occupied for other purposes.

Adding the Station-house lodgings to total above given for the year (147,622), we find a grand total of 4,545,495, an average of 12,453 persons

per night. A study of these figures and the subject they represent will prove interesting to students of socialistic questions.

For further information relative to Police Pension Fund see appendix.

The annual payments to pensioners are increasing very rapidly under the laws relative to the retirement of members of the force. In 1881 the amount paid to pensioners was \$105,183.85. In 1891 the amount reached the sum of \$480,653.40, an increase of \$28,659.82 over the year 1890. The annual increase during the eleven years past has averaged \$34,133.60. Notwithstanding the enactment of chapter 351, Laws of 1891, which was approved and went into effect on the 8th day of May, 1891, the receipts for the year from all sources, including balance on hand at the beginning of the year, were \$36,478.41 less than the receipts for 1890. The recapitulation of receipts will show the items of decrease.

During the year just closed the Board has been careful in awarding pensions to widows and to others where discretion was permitted under the law. Many applications have been denied upon economical grounds, and especially in cases where there was good reason to believe the pension was not absolutely necessary as a means of support. The maximum sum allowed to widows has been granted only to those actually in need of it and the average amount greatly reduced.

The provisions of law which make it mandatory upon the Board of Police to dismiss and retire members of the force after twenty years' service, on their own application in writing, and with half pay, has had the effect to swell the pension list to the proportions indicated in the report

of the trustees of the fund hereto appended. Without doubt this is the most generous provision to public employees granted in any city in the world, and it is not to be wondered at that the Police force generally take advantage of it. And when we consider the time of service, the amount of salary paid, together with the amount given as pension to a comparatively young man for the remainder of his life, we are led to conclude that our Police are amply rewarded for the exposures and perils to which they are subjected in the performance of their duties. Originally the Pension Fund was designed for the benefit of superannuated and permanently disabled Policemen, and the widows and orphans of those who had given their services for a specified time. Legislation, from time to time, has gradually opened the door to a much larger number, and increased the amounts to be paid, until we find that the mere business in connection with the collection and disbursement of the fund has become enormous.

APPROPRIATIONS.

The appropriations for 1891 and 1892, made by the Board of Estimate and Apportionment, for the purpose of conducting the business of the Police Department, are given, so that information can be had at a moment's notice by all interested in the matter.

DETECTIVE BUREAU.

The following tables and figures show the work of the Detective Bureau for the year 1891. As will be seen, the officers of the Bureau made 53 arrests more than in 1890. This branch of Police service is admirably managed and meets with general approval for its skill and efficiency. Very few cases of secret crime remain undetected.

Police Matrons.

In accordance with the provisions of chapter 90, Laws of 1891, the Board of Police has designated ten Station-houses, viz.: The Fourth, Sixth, Eleventh, Thirteenth, Fifteenth, Nineteenth, Twenty-first, Twenty-fifth, Twenty-ninth and Thirty-third Precinct Station-houses for the reception and temporary detention of women prisoners. To meet the requirements of the law, important and necessary alterations and additions had to be made in all but the two first of these Station-houses; plans and specifications had to be drawn, and all the forms of law as to advertising for bids, opening of the same and the award of contracts fully complied with. At the close of the year the work was in progress and nearly completed upon all these alterations, and the houses are expected to be ready in the first month of the year 1892, when Matrons will be appointed.

On the 29th of September four Police Matrons were appointed on probation and assigned (two each) to the Fourth and Sixth Precincts. These Matrons have been provided with all the necessities required for the proper performance of their duties. The experiment has not, however, been sufficiently tested to prove the wisdom or good policy of the enactment.

Tours of Duty.

Frequent inquiries having been made of this Department as to the division of patrol service among the Patrolmen of the force, a schedule was published in the report for 1889, to which attention is called.

STREET CLEANING COMPANY.

The following table shows the admirable work of the Street Cleaning Company for the year. This company, which consists of one Sergeant, two Roundsmen and fifty-seven Patrolmen, arrested 4,854 persons during the year for the offenses enumerated in the table—an average of 81 arrests for each officer :

Total value of lost and stolen property recovered by the Street Cleaning Company was \$7,404.06.

Total number of complaints made by citizens and investigated by the Police of the Street Cleaning Company was 193.

Bureau of Elections.

The following tables show the work of the Bureau of Elections so far as the selection of election officers is concerned. A reduction in the number of Election Districts had the effect to reduce somewhat the number of persons under consideration for appointment. There was, however, the same investigation and careful consideration of the qualifications of every candidate for appointment, with the result that all the detailed work of Inspectors, Poll Clerks and Ballot Clerks was satisfactorily performed.

Owing to certain amendments to the new ballot law, which went into operation in 1890, the labor of preparing the ballots for the Election Districts in 1891 was rendered much smoother and easier. The experience gained in 1890 was valuable in that the unavoidable and excusable delays of that year were avoided and every provision of the ballot law fully and promptly carried out in 1891. No complaints were received either as to delay, improper form of ballots, or as to inefficiency on the part of any one charged with the duty of preparing for the election.
